

The First EAI Conference on Smart Societies, Infrastructure,
Technologies and Applications

SCITA 2017

Jeddah, Saudi Arabia

27 – 29 November 2017

Second Call for Posters

Poster submission deadline: 10 November 2017

Notification: 12 November 2017

The final revised poster submission deadline: 14 November 2017

Conference Dates: 27 November to 29 November 2017

Authors are invited to submit posters to be considered for display during the posters session of SCITA 2017. The posters must be sent as a PDF file to RaedSaeed@gmail.com no later than 10 November 2017.

Notification of poster acceptance or rejection will be sent to authors via email by 12 November 2017.

The deadline of the final revised poster submission is 14 November 2017.

Printing and mounting the accepted posters will be done by SCITA team.

For each poster, at least one author is kindly requested to be present at the poster during the entire session time.

All the accepted posters will be compiled into the SCITA 2017 Poster Proceedings and will be made available electronically through the SCITA website.

Conference Fees

There is no fees for attending SCITA 2017.

Themes and Tracks

- Smarter Society Applications (Healthcare, Mobility ...)
- Smart Infrastructure (distributed systems, HPC, Big Data ...)
- Social Capital Development and eGovernance
- Innovation and Entrepreneurship
- Crosscutting Themes

Topics

- smart transportation systems for smart societies
- smart and personalized healthcare systems for smart societies
- smart buildings, smart homes and smart energy grids
- Computational and artificial Intelligence applications for smart societies
- Big data applications for smart societies
- mobile applications for smart societies
- analytics for smart societies
- eGovernance for smart societies
- social networks and media
- modelling and analysis of smart society technologies, applications and systems
- High Performance computing infrastructure and applications for smart societies
- Artificial Intelligence methodologies, tools, software for smart societies infrastructure
- Internet and Web infrastructure for smart societies
- IoT based approaches for smart societies infrastructure
- Big data technologies for smart societies infrastructure
- cloud, fog and edge computing for smart societies
- studies focussed on communication networks for smart societies
- information management for smart societies
- security and privacy of smart society systems
- innovation and entrepreneurship in smart society settings
- Software defined approaches for system design including networking and interactions
- Social capital development for smart societies
- Lifelong learning for smart societies
- Social capital development for smart societies
- eLearning and distance learning for smart societies
- Collaborative and social learning
- Social intervention methodologies
- Innovation and Entrepreneurship
- Smart citizens
- Smart living and living spaces
- Smart environment
- Smart economy
- Smart Grid
- Industry 4.0

Important Dates

Poster submission deadline: 10 November 2017

Notification: 12 November 2017

The final revised poster submission deadline: 14 November 2017

Conference Dates: 27 November to 29 November 2017

Steering Committee

Prof. Imrich Chlamtac, European Alliance for Innovation

Dr. Robert Eades, IBM Middle East & Africa

Dr. Iyad Katib, King Abdulaziz University, Saudi Arabia

Prof. Rashid Mehmood, King Abdul Aziz University, Saudi Arabia

Dr. Jeff Nichols, Oak Ridge National Laboratory (ORNL), USA

General Chairs

Prof. Rashid Mehmood, King Abdul Aziz University, Saudi Arabia

Dr. Budhendra Bhaduri, Urban Dynamics Institute, Oak Ridge National Laboratory (ORNL),
USA
